

SAFETY REMINDER:

RESPECT RESTROOM CLEANING SIGNS

At the USPS, every employee matters, and safety is everyone's responsibility. Our Maintenance team, especially the Laborer Custodians, play a vital role in keeping our work areas clean and safe.

Recently, there have been issues with employees attempting to enter restrooms while male and female Laborer Custodians are cleaning. This is a serious safety and privacy concern for everyone.

When a restroom is blocked off, coned, or signed for cleaning, please do not enter. We have 16 restrooms in the GMF facility, if one is closed, simply use another until the restroom is reopened.

If you are at a Station or Associate Office, please be patient and respect the signage, the restroom will be open soon.

Thank you for helping our custodians do their jobs safely and for supporting a respectful, safe workplace for all.

Thank You,

The SAAAL Maintenance Craft Leadership

Sherrie Pierre – Craft Director

Tia Lockett – Asst. Craft Director
